As a leading Los Angeles-based dance company, we are honored and thrilled to be representing our community at the renowned Eli and Edythe Broad Stage on September 13th and 14th!

Invertigo Dance Theatre is excited to announce that the tickets are [now available](#) for the world premiere of its newest work *Formulae & Fairy Tales* September 13 and 14 at Santa Monica's Eli and Edythe Broad Stage!

[Formulae & Fairy Tales](#) is a full-length work casting the life of Alan Turing, mathematical genius and World War II codebreaker, into the technicolor and mythologized ideas of his favorite film, Disney's *Snow White and the Seven Dwarfs*. After the war, Turing was criminally prosecuted for being gay and forced into chemical castration. In 1954, he died by eating an apple laced with cyanide, an act eerily foreshadowed by Snow White.

The production places the cold, high-stakes world of mathematics, artificial intelligence, and cryptography alongside a vivid, twisted fairy tale palette of romanticized beauty; blending historical events, sexuality, gender identity, and our essential humanity. The choreography plays on binary vs. nuance, mathematical precision vs. sensual expression. Theatricality, interactive video projections, and original music shape the performance into a landscape.

The Work Features:

Sensuality ~ Cryptography ~ Codes ~ Meaning That is Hidden & Revealed ~ Love That is Hidden & Revealed ~ The Apple as Forbidden Knowledge & Forbidden Love

Formulae & Fairy Tales was one of 20 projects nationwide selected for the New England Foundation for the Arts' National Dance Project, with lead funding from the Doris Duke Charitable Foundation and The Andrew W. Mellon Foundation.
