

Here we Invertigogo!

On September 13-14, we will premiere [Formulae & Fairy Tales at the Broad Stage](#) in Santa Monica, CA! This will be our biggest show yet, but producing a show of this size requires resources.

To complete the artistic creation and community engagement programs for Formulae & Fairy Tales, we need to raise \$15,000 by August 23rd, 2019, so we've launched Invertigo's very first [Indiegogo campaign!](#)

Formulae & Fairy Tales is based on the life of mathematical genius and World War II code-breaker Alan Turing, who lived at a time when his sexual orientation wielded chilling consequences, and his obsession with his favorite film, Disney's Snow White and the Seven Dwarfs.

As a Los Angeles-based nonprofit arts organization, we depend on donations from individuals like you to bring this unique and meaningful work to our community. **Our goal is to raise at least \$5000 in our first week to get us off to a strong start.** We know we can't do this without your help, and we've prepared a selection of demonstrations of our appreciation for contributions of any level.

Please visit our campaign and [donate](#) today, and share with your family, friends, and colleagues! If you'd like to purchase tickets to the premiere, [they are available here.](#)

Thank you!
