

***Formulae & Fairy Tales* TONIGHT**

Student Discount Tickets Available!

“Formulae & Fairy Tales’ grapples with the life of Turing, the mathematician and cryptanalyst whose code-breaking work during World War II saved millions of lives. The work also makes a whimsical connection to Turing’s love of Disney’s 1937 film “Snow White and the Seven Dwarfs.”

Discounted Tickets for College Students w/Current ID

Tickets to Formulae & Fairy Tales at The Broad Stage this weekend will be available to college students with a current student ID.* These tickets will be made available 1 hour before showtime at the box office.

Performances:

Fri | 9/13 | 7:30 PM

Sat | 9/14 | 7:30 PM

*\$10 – SMC Associated Students with current student ID

*\$20 – All full-time college students and SMC Emeritus students with current student ID

[Purchase all other tickets and get more show information here.](#)

Formulae & Fairy Tales LA Times Feature

"Choreographer Laura Karlin first envisioned "Formulae & Fairy Tales" while driving around L.A. in 2007. She was listening to an NPR interview with Janna Levin about the novel "[A Madman Dreams of Turing Machines,](#)" in which Levin compares the lives and tragic ends of eccentric geniuses Kurt Gödel and Alan Turing.

Raised in L.A., Karlin made frequent visits to England growing up and was familiar with Turing, the British artificial intelligence pioneer. But in that moment, something else clicked, and flashes of choreography flooded her mind. She pulled her car over and began filling pages of ideas including a duet where two men share a bite of the same apple and series of binary code-inspired gestures."
